DETAILED ACTION

This office action is responsive to the amendment filed on 10/7/05. Claims 1, 7, and 12 have been amended, claims 4-6 and 13 have been canceled, and new claim 14 has been added.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 14 is rejected under 35 U.S.C. 102(e) as being anticipated by Suzuki et al. (U.S. Pat. No. 6,601,870 B2).

Suzuki et al. discloses a main cover body (11) having a door portion (12) which opens when an airbag inflates. A back plate (26) is mounted on a back surface of the main cover body, and connectors (hooks located through holes 34 and 36) that extend away from the main cover body for connecting the cover to an airbag container, wherein the back plate and the connectors are separate elements. Edge portions (portion of 26 connected to rear surface of main cover body 11) of the back plate are provided with back plate openings (35) for projecting pieces (17) of the main cover body to extend through the openings, wherein the back plate openings and projecting pieces are arranged outside of the door portion of the main cover body.

Allowable Subject Matter

3. Claims 1-3 and 7-12 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter:

Claims 1 and 12 are allowable as they disclose a main cover body having projecting pieces, connectors that separate from a back plate and have a front piece and a leg piece, wherein the projecting pieces extend through openings formed in the front pieces of the connectors and openings formed in the back plate.

Response to Arguments

5. Applicant's arguments with respect to claim 14 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3616
